SCHUBACH AVIATION ACQUIRES LEARJET 35 PRIVATE AIRCRAFT

SAN DIEGO – (May 14, 2009) – Schubach Aviation, San Diego’s leading on-demand air charter service firm with operations at Palomar Airport and Lindberg Field, has acquired a Learjet 35 to augment its diverse fleet of charter aircraft, announced Henry Schubach, president of the firm.

The luxurious Learjet 35 is a lightweight, high-performance jet and among the most popular of executive aircraft. Passengers immediately notice the immaculate attention to detail that has made this particular aircraft a favorite means of corporate travel. Its inherent structural qualities give it the ability to achieve altitudes of up to 45,000 feet, where the less restrictive atmosphere allows the jet to fly farther, faster and above most air traffic, thus providing passengers with a smoother, more enjoyable flight.

The speed of the Learjet 35 also makes it one of the most economical corporate transports, particularly when traveling coast to coast. Boasting a range of 2,000 nautical miles, the twin-engine Learjet 35 is capable of taking passengers from California to New York or California to Florida with one fuel stop. The aircraft is available for charter beginning immediately.

With seating for up to seven passengers and two crew members, Schubach Aviation's Learjet 35 features a luxurious warm beige leather interior, flight phone, CD and DVD players, movie display and refreshment center.

The Learjet 35 joins a fleet of 20 private, luxury aircraft impeccably maintained and chartered by Schubach Aviation at its state-of-the-art Palomar Airport facility. The company also maintains and operates a Gulfstream IV; two wide-bodied Bombardier Challenger 601s; five Hawkers; a Lear 55; several light-weight Citations, including two factory-new CJ3's; and a range of King Air turbo prop aircraft.

Schubach Aviation is San Diego's premiere, on-demand charter aircraft carrier, providing the corporate community and leisure travelers with private aircraft charters to anywhere in the world. Founded in 1992 by Henry Schubach, the firm employs a team of 42 highly experienced pilots, mechanics, and support staff at 2100 Palomar Airport Way in Carlsbad, Calif. and at Lindberg Field in central San Diego. More information about the company can be found on the web at www.schubachaviation.com.
